

KOROLEN – Drops

THIS PRODUCT IS REGISTERED AS A FOOD SUPPLEMENT. IT IS NOT A MEDICINE AND SHOULD NOT BE USED AS A SUBSTITUTE FOR PRESCRIBED MEDICINES. Korolen is a bio-information product with a wide-spectrum regenerative effect that is manufactured using the latest achievements in the fields of phytotherapy, psychotronics, crystal therapy and bio-resonance. It is highly concentrated product containing herbal extracts, essential oils and bioinformation in balanced complex.

The Energy bio-information preparations affect a human body at several levels at the same time. While the active substances act directly on organs and processes in our body, the information factors obliterate a cause of illness in the information field through bio-resonance.

Thanks to the herbal extracts and bioinformation Korolen shows quite strong detoxicating, antioxidative and regenerative effects. It can be used when feeling a lack of energy and weariness. It can help in conditions connected with heart, vascular and neural systems, too. Thank to its positive effect on spleen and bone marrow it can facilitate improvement of the blood quality and promotion of blood cells production. Korolen shows positive effect also on mental conditions accompanied by lack of energy or on conditions caused by the overburdening the body with harmful substances (toxins, fungi, etc.). Korolen influences primarily the energy channels of heart, small intestine, pericardium, three burners, channel of conception and governing channel.

Korolen can be of help in the following conditions:

- body detoxication and regeneration; removal of fungi and heavy metals from the body
- inhibition of the incidence of cardiovascular diseases and blood pressure disorders
- improvement of peripheral blood circulation and the elasticity of blood vessels
- harmonization of hormone system
- boosting immunity and production of red blood cells
- reduction of the blood cholesterol levels
- better oxygen supply to the brain; thus helping to improve memory and concentration
- facilitation of maturing of the brain and its functions in preemie babies and children with ADD/ADHD
- acceleration of the healing and recovery processes
- reduction of the negative impact of the stress, overwork, insomnia, depressions and anxiety
- inhibition of the incidence of vascular complications in people suffering from diabetes (diabetic foot syndrome, eye and kidney disorders)
- overall toning of the body and retardation of the process of ageing.

Use of Korolen from the mental point of view: behavioral disturbances, restlessness, impatience, hysteria, emotional instability, inability to make friends, speech impediments, memory and sleep disorders, loss of vitality. Korolen boosts vitality and positively influences development of forgotten abilities.

Korolen herbal composition: Ginkgo biloba: is used in chronic brain insufficiency, memory loss, arterial disease, headaches, senility and dementia. It is effective against free radicals and slows the process of aging. **Lapacho:** is an old Indian drug used in the treatment of cancer, leukemia and other oncologic diseases. It is also used in systemic mycoses, liver dysfunction, anemia, and immunosuppressive conditions and in dysfunction of the endocrine system. **Hypericum perforatum:** is effective in neurological disease, insomnia, migraine, depression, gastric ulcers, flatulence, liver and gall-bladder disease, AIDS. It has anti-inflammatory properties, and it regenerates tissues. **Aesculus hippocastanum:** increases the elasticity and resistance of blood vessels, it stimulates the adrenal glands. It is used in the treatment of hemorrhoids, varicose ulcers, migraine, atherosclerosis, strokes, and diseases of peripheral circulation. **Echinops sphaerocephalus:** contains the non-poisonous alkaloid echinopsine, which regulates the function of the parasympathetic autonomous nervous system. It improves memory, hearing and vision. It restores the function of fine nerves and of neural centers in the brain. It is used in paralysis, neuralgia, inflammation and damage of the spinal cord, and as a cardio tonic agent. **Menyanthes trifoliata:** contains iodine phyto-cides, manganese and iron. It is used in liver, gall bladder and blood production dysfunction. Also in headaches, rheumatism, fever, neuralgia of the trigeminal nerve, gastritis and in general exhaustion. **Sanguisorba officinalis:** is used as an antipyretic agent, and in homeostasis. It has very good anti-inflammatory and antibacterial properties. It is an anti-protozoa agent. It is used in lung disease, and it activates vital centers. **Lavandula spica:** contains antocyanogens protecting cells against malignant transformation, decreases blood pressure and has antibiotic properties. It is used in neurological and gastrointestinal disease, in hay fever. It stimulates greater enzyme production in the pancreas. **Medicago sativa:** contains potassium, phosphorus, iron, calcium, beta-carotene, vitamins B1, B2, K, C, D and is very alkaline. It strengthens the body in general. It is used in anaemia, rheumatism and oedema. It has a positive effect on the thyroid gland, the hypophysis, the kidneys and the spleen. **Vaccinium vitis - idaea:** has disinfectant properties, and contains vitamin C. It is used in inflammation, in urologic, hematological and locomotory system disease, in diabetes. It excretes salts from the organism. **Quercus robur:** has an antibiotic and detoxicating property. It is useful in cases of acetone aspiration. It is used in diarrhoea, inflammation of the gums and the GIT. It prevents the spread of bacterial infection from the intestinal tract to the urogenital region. **Carum carvi:** eliminates the effects of solanine, it has a bacteriostatic effect against parasites. It is used in smooth muscle spasms, flatulence, and to stimulate gastric and intestinal exocrine glands. **Anethum graveolens:** increases cardiac blood flow. It is used in angina pectoris, in the prevention of ischemic cardiac disease, after myocardial infarctions. It has spasmolytic, diuretic and disinfectant properties in the urinary tract. It destroys intestinal parasites. **Zingiber officinalis:** stimulates the circulatory system, increases peripheral blood return, decrease flatulence and colic, stimulates transudation, decreases blood cholesterol levels, prevents motion-sickness. It is used in states of general exhaustion, and a lack of energy. It stimulates lungs during infections. **Viola tricolor:** is used in allergies, rheumatism, arterial and skin diseases. It increases peripheral blood return and the accumulation of calcium in bones. It suppresses bleeding into tissue and has anti-oedematous properties. It accelerates the excretion of toxins from the body. **Cyanus segetum:** eliminates the negative effects of ergot. It is a diuretic and cholagogue. It is used in inflammation of the eyes. It has a positive effect on the lymphatic system and on metabolism. **Allium sativum:** contains selenium and germanium, which have anti-cancerogenic and anti-mycotic properties. It acts as an antibiotic and it is used in immunosuppression, diabetes, and cardiovascular and oncologic disease. It eliminates the negative effects of gases, varnish, petroleum, petrol; and it lowers blood cholesterol. Furthermore, Korolen contains the information from plants, minerals, and oils, e.g., amber, gold, crystal, etc.

Combination with the cream Ruticelit is recommended.

Regeneration process and dosage: Shake well before use. This leads to the dynamization of the information components, thereby increasing the effectiveness of the product.

Adults	2-7 drops 1-3x a day
Children from 12 year of age	7 drops per day
Children 3 - 12 year-old	2 drops per day, half an hour before or after the meal.

Storage: 10-25°C, keep dry

Content: 30 ml

Do not exceed recommended daily dose. Put drops on a spoon and apply directly or put them in a glass of water. To stimulate the process of detoxication increase your intake of fluids within the period of regeneration process. After three weeks it is necessary to interrupt the application for one week.

In chronic conditions apply minimum dosage, in acute conditions increase the dosage. In the event of temporary or transient aggravation, decrease the dosage down to minimum. After improvement return to the original dosage. Do not discontinue, as these are symptoms of the reverse regeneration process, during which symptoms of previous diseases may appear. This phenomenon represents only a positive regenerative reaction! If in doubt about the exact dosage, always consult your physician or therapist. In pregnancy no regeneration products should be used, unless a physician is consulted. Product is suitable for diabetics.

Caution: Product is not designed for children under age 3. Keep out of the reach of children.

Food supplements should not be used as a substitute for a diversified diet.
