

RENOL – Drops

THIS PRODUCT IS REGISTERED AS A FOOD SUPPLEMENT. IT IS NOT A MEDICINE AND SHOULD NOT BE USED AS A SUBSTITUTE FOR PRESCRIBED MEDICINES. Renol is a bio-information product with a wide-spectrum regenerative effect that is manufactured using the latest achievements in the fields of phytotherapy, psychotronics, crystal therapy and bio-resonance. It is highly concentrated product containing herbal extracts, essential oils and bioinformation in balanced complex.

The Energy bio-information preparations affect a human body at several levels at the same time. While the active substances act directly on organs and processes in our body, the information factors obliterate a cause of illness in the information field through bio-resonance.

Thanks to the herbal extracts and bioinformation Renol shows quite strong detoxicating, antioxidative and regenerative effects. It influences proper functioning of excretory organs (kidneys and urinary bladder) and minerals management in the body. Proper functioning of kidneys is connected also with regulation of blood cells production in bone marrow and blood pressure and with maintenance of the balance of internal environment of the body. Through energy channels is the whole body support system (bones and joints) linked with excretory organs, therefore Renol can help also in cases of disorders of locomotive organs. Kidneys are very sensitive organs, regeneration of which after damage is very complicated. In kidneys is stored innate energy; when kidneys are overburdened, this energy dissipates and thus lowers functioning of the human body. It is recommended to boost the function of kidneys to avoid the process of premature aging. Renol influences primarily the energy channels of kidneys and urinary bladder, spleen, and three burners.

Renol can be of help in the following conditions:

- body detoxication and regeneration
- regeneration of kidneys, urinary bladder, prostate and lymphatic system
- can be used as a supplement in cases of the inflammation of urinary bladder and urinary tract, kidney disorders, occurrence of kidney stones and some chronic gynecological disorders
- bed wetting in children
- prostate disorders; beneficially influences a condition of male sex glands
- harmonization of the function of adrenal gland
- disorders of locomotive organs
- headaches
- skin disorders such as eczema and acne
- lack of energy and chronic fatigue

Use of Renol from the mental point of view: Inability to relax, distrust and cynicism, shyness, indecisiveness, resignation, restlessness and agitation, CNS hyperactivity.

Renol herbal composition: *Ononis spinosa*: is used in metabolic defects; in urolithiasis, gout, dropsy and rheumatism. *Calluna vulgaris*: has a disinfectant and diuretic property. It is used in urolithiasis, in urinary bladder infection associated with prostate hypertrophy, in rheumatism and in joint pain and swellings. *Artemisia dracunculus*: contains iodine. It improves metabolism. It is used in colon irritable, and it has tonic and anti-sclerotic properties. *Sambucus nigra*: contains ruthenium that has a positive effect on the walls of blood vessels. It is used in the treatment of intestinal and urinary bladder diseases. It influences contact eczema. It contains vitamin C. *Arcticum lappa*: is used in gout, rheumatism, chronic eczema, in inflammatory conditions of the gastrointestinal tract, and in urolithiasis. *Tropaeolum majus*: contains a natural antibiotic which even in its lowest concentrations is effective against 46 strains of the Staphylococcus bacteria. It is used in the treatment of the urinary tract infections. *Ribes nigrum*: stimulates metabolism. It contains magnesium salts and vitamins B. It is used in rheumatism, in urethrocystitis. *Geranium robertianum*: is used in haematuria, in intestinal inflammation, in urolithiasis, in renal disease, in neural inflammation, in oedema, in eczema, and in infertility. *Bidens tripartita*: accelerates metabolic processes. It is used in liver and kidney diseases, in psoriasis, eczema, and allergies. It stimulates the adrenal glands. *Polygonum aviculare*: is used in gout, rheumatism, diarrhea, eczema, bronchitis, diseases of the kidney and urinary bladder. It flushes out small nephroliths. *Solidago virgaurea*: its main domain of application is in urology: in diseases of the kidneys, of the testicles, the prostate and the male sexual glands. It is also used in proteinuria, gout, rheumatism, urolithiasis, edema, and arthritis. *Conyza canadensis*: is used in gout and internal bleeding, in urinary bladder and kidney infections, in eczema, rheumatism, colds, diseases of the prostate, as well as in cancers. *Filipendula ulmaria*: is used in rheumatism, oedema, eczema, polyarthritis, diseases of the kidney and bladder. It prevents putrefaction in the intestines. *Verbena officinalis*: affects the function of the liver, kidneys and spleen. It is useful in skin diseases, bronchitis and neuralgia of the trigeminal nerve. *Epilobium parviflorum*: has a positive effect on the whole genito-urinary system. It is used in inflammation of the kidneys, bladder and prostate.

Furthermore, Renol contains essential oils and plant and mineral information. Combination with the cream Artrin is recommended.

Regeneration process and dosage: Shake well before use. This leads to the dynamization of the information components, thereby increasing the effectiveness of the product.

Adults	2-7 drops 1-3x a day
Children from 12 year of age	7 drops per day
Children 3 - 12 year-old	2 drops per day, half an hour before or after the meal.

Storage:	10-25°C, keep dry
Content:	30 ml

Do not exceed recommended daily dose. Put drops on a spoon and apply directly or put them in a glass of water. To stimulate the process of detoxication increase your intake of fluids within the period of regeneration process. After three weeks it is necessary to interrupt the application for one week.

In chronic conditions apply minimum dosage, in acute conditions increase the dosage. In the event of temporary or transient aggravation, decrease the dosage down to minimum. After improvement return to the original dosage.

Do not discontinue, as these are symptoms of the reverse regeneration process, during which symptoms of previous diseases may appear. This phenomenon represents only a positive regenerative reaction! If in doubt about the exact dosage, always consult your physician or therapist. In pregnancy no regeneration products should be used, unless a physician is consulted.

Product is suitable for diabetics.

Caution: Product is not designed for children under age 3.

Keep out of the reach of children.

Food supplements should not be used as a substitute for a diversified diet.
